

Are you new to the area or looking for a family doctor?

FAMILY DOCTOR FINDER

Connecting you to
Your Primary Care

The Family Doctor Connection Program helps to connect Manitobans to a family doctor, nurse practitioner or other primary health care provider.

If you live in Manitoba and need a regular health care provider you can call to register with the program. When you call you will be asked for basic information about you, including where you live and your preference for the type of provider (example: gender, location, spoken language)

Your health region will then work to find a provider or clinic that is accepting new patients in a location that works for you.
